

**PENEFREE™  
NON-FLAMMABLE PENETRANT**

- Dissolves and penetrates corrosion
- Penefree is non-flammable and designed to use around heat or open flame
- Special wicking ingredient works its way into even the tightest applications

**SPECIFICATIONS**

Color..... Yellow-amber  
 Odor..... Ether-like  
 Specific Gravity..... 1.32  
 Flammability..... Non-flammable

For food plant usage see page 15.1; guideline #5

Code #	Size
600-2-5622	16 oz / 454 g Aerosol Can

**PL-100™  
PENETRATING LUBRICANT**

- Penetrates in critical, hard-to-reach areas then gels into an excellent lubricant
- Protects against rust and corrosion
- Blends with motor oils so it will not plug filters
- Translucent and odorless, making it ideal for applications with high visibility
- Contains PTFE for excellent lubrication
- Repels water and is non-staining

**SPECIFICATIONS**

Color..... Clear  
 Odor..... Odorless  
 Operating Temp..... 20°F - 120°F (-6°C - 48°C)  
 Flammability..... Flammable  
 Specific gravity..... 0.72

For food plant usage see page 15.1; guideline #5

Code #	Size
600-1-5441	10.5 oz / 297 g Aerosol Can

**PN-105™  
CHEMICAL PENETRANT**

- Penetrates to break the locking bond of corrosion
- Capillary action penetrates in any direction – EVEN UPWARD
- Releases rusted and frozen nuts and bolt – FAST
- All-direction spray nozzle for application anywhere
- Cleans out dirt, dust, grease and sludge
- VOC compliant in all 50 states

**SPECIFICATIONS**

Color..... Amber  
 Odor..... Petroleum distillates  
 Specific Gravity..... 0.84  
 Boiling Point..... 154°F (67°C)  
 Flammability..... Flammable

For food plant usage see page 15.1; guideline #5

Code #	Size
600-1-5068	12 oz / 340 g Aerosol Can
600-1-5070	5 Gallons (bulk)
